

avanttic receives a global award from Oracle for its commitment to the cloud

avanttic receives the Global Specialized Partner of the Year award in the Oracle Cloud PaaS category

22 October 2018.- [avanttic](#), the technological consultancy firm, has won the **2018 Oracle Excellence Award** for being the best global partner in the **Platform as a Service (PaaS)** category. **Javier Barrio**, *avanttic's Sales Director*, received the award yesterday at the Oracle OpenWorld Congress currently being held in San Francisco (USA).

avanttic has received recognition for its efforts in recent years to assist its customers in transferring their workloads to the cloud. *avanttic* has provided support for numerous companies, materialising their evolution to the cloud: defining roadmaps, carrying out concept tests and conducting successful projects.

In 2016 *avanttic* became Oracle's first Spanish partner to join the cloud certification programme (**Oracle PartnerNetwork Cloud Programme**). In February 2018, furthering its commitment to the cloud, the company launched its [Fly to Oracle Cloud](#) website with a series of packaged services focused on helping companies to move to Oracle Cloud.

In the words of **Javier Barrio**, *avanttic's Sales Director*, "*receiving the **Global Specialized Partner of the Year - PaaS** award represents full recognition of our constant commitment to innovation and specialisation in Oracle technology. Obtaining this award increases customers' confidence in our Oracle cloud-based solutions and services. *avanttic* greatly appreciates this award, as it comes at an important moment, just when we're beginning the tenth year of our history*".

According to **Miguel Salgado**, *Oracle's Iberia Alliances & Channel Leader*, "*avanttic* deserves this global recognition for its ability to help customers to successfully migrate to the cloud and advance their digital transformation processes. In just a few years, *avanttic* has positioned itself as a benchmark in the domestic and international fields among Oracle's partners. By adding more and more specialisations, exclusively focusing from the outset on Oracle technology and heading successful projects to generate real value and business results for its customers".

Pioneer in the cloud

avanttic was included in the **EMEA Hero Partners** programme for being one of the first companies to offer a comprehensive service proposal based on Oracle Cloud, which contains more than 20 packs available on its [Fly to Oracle Cloud](#) website.

Similarly, **avanttic** was the first EMEA Oracle partner to develop and implement a **Chatbot in Oracle Cloud for the public sector** (Sant Just Desvern Town Council, Barcelona).

avanttic has received the following awards as an Oracle Partner

- **Oracle Excellence Awards 2018 Oracle Cloud PaaS Specialized Partner of the Year (Global)**
